## INVITATION

Dear Colleagues,  
The Department of Pathology at Seth G.S. Medical College & KEM Hospital, Mumbai, is proud to host the 17<sup>th</sup> Annual CME of International Academy of Pathology-Indian Division on “**Fungal Infections-Pathomycologic Aspects**”. There is a steady increase of fungal infections, especially related to prolonged use of steroids, chemotherapy, organ transplants and HIV infection and these infections pose a challenge to the clinicians due to difficulties in diagnosis and treatment. Keeping this fact in mind, the program has been designed to cover various aspects of fungal infections right from basics like morphology and culture to prevention through lectures and case-based learning. This will benefit the postgraduates as well as the faculty. We welcome you all to the vibrant city of Mumbai for this academic feast.
