

4th Annual Conference Of
Molecular Pathology Association of India (MPAI)
TATA Medical Center, Kolkata, India.

14th – 15th February, 2015,

Venue : Novotel Hotel

It is our honour and privilege to invite you to the **4th Annual Conference of the Molecular Pathology Association of India (MPAI)** from **14th – 15th February, 2015** ; being hosted by **TATA Medical Centre**, at **Novotel Hotel, Kolkata – the City of Joy**.

Pre-Conference Workshops are scheduled for the 13th February, 2015.

This Conference is aiming to provide Laboratory Physicians, Clinicians, Bio-Medical Scientists with an integrated molecular diagnostic and clinical approach to disease management. The theme of this conference is “ **Emerging Role of Molecular Pathology in Clinical Medicine** ”.

The Scientific program takes the participants through the molecular diagnostic and clinical pathways with plenary lectures, interactively conducted clinical case study sessions by international & national faculty . The conference will have state of the art proffered papers and posters highlighting clinical research in molecular diagnostics. Basic scientists will present their front-line research in the fields on oncology, haematology and infectious diseases.

The faculty is available to provide individual guidance to the participants throughout the meeting. The scientific program is designed to encourage interaction between the faculty and the conference participants. Molecular Pathologists, Clinician Scientists and Bio-Medical Scientists will benefit the most from this conference. This conference is being held in collaboration with the Association of Molecular Pathologists (USA) and Association of Pathologists in North America (AIPNA).

Come, share the knowledge and experience .

Dr. (Col) Deepak K Mishra

Dr. Sanjay Bhattacharya
