President's Message

It is almost 5 months since the present executive took over executive committee, I must congratulate Dr. Asaranti Kar for being elected as a Joint secretary of IAPM. Welcome to family of IAPM executive. This will be a real boost for us as she can concentrate on chapter activities. In our previous communication, we stressed on the improved activities of the state chapters of IAPM. The honorary secretary has contacted several chapter executive for this purpose. I hope with the help of joint secretary, we will be able to do this exercise more vigorously. There is also a need to think about conducting many workshops based on glass slides at the level of state chapter as it will be difficult to implement in the annual conference of IAPM. We request all the experts of different fields of the states should help the chapters in conducting these workshops by providing technical and academic help.

We have already uploaded a tentative programme in the web site of IAPM and APCON 2017. Prof. Siddharth Duttgupta has put several hours of his valuable time in preparing this programme. The present executive along with an academic committee helped Dr. Duttgupta in making this tentative programme. As the medical council of India has given a lot of importance on the research methodology, we have introduced a couple of sessions on the first day of APCON 2017 in the student corner. If it is successful, we may think of expanding this programme in future. The general body in APCON 2016 has also requested to form a specialty advisory group who can help the executive committee in the preparation of APCON programme. The present executive will form the modality in forming this group in near future. I request all the members of IAPM to participate in the APCON 2017 in large number to make the conference a great success academically.

HONARARY SECRETARY'S REPORT

Dear Friends

By now you must have received Jan-March issue of the IAPM news bulletin and tentative programme of APCON 2017 which is put up on website.

As you all know as soon as I took over as secretary, I had to conduct elections for the post of joint secretary, IAPM. The honorary secretary's office is gradually becoming a store house of undelivered bulletins. I know for sure, many members who have moved places have not officially asked us to change their addresses and the ballots papers and news bulletins are returning back.

I congratulate Dr Asaranti Kar, elected as joint secretary, IAPM and will be happy to have her as my associate

As I mentioned in previous news letter, I have started working on members data base update vigourously. It is my duty to inform you about the steps I have taken till now. I segregated data state wise and sent to all respective state chairpersons, prepared list of addresses and phone numbers from returned ballot paper envelopes, collecting data from last conference delegates list, prepared list from undelivered ballot papers & contacted other pathologists from city and nearby for help and personal contacts. Here I like to give special thanks to chapter chairpersons for helping me in upgradation.

I would earnestly request all life members, those who did not get ballot papers, those are in transferable jobs especially from defence forces, please ensure that the IAPM has your correct current correspondence address by informing the honorary secretary, the honorary treasurer and Editor-in-Chief by email only. Your email address and mobile number also would be very helpful in electronic voting in future. Following link to be used for change of address.

Since the year 2003, a lot of discussions occurred in EC and GBMs regarding simplification of membership process and website revamp. So to take that challenge further, I had discussions with various website companies. Finally after negotiations, agreeable proposal from Sobeit Technology was received. I am extremely thankful to executive council members for showing faith in me and approving the proposal on EC email group. **I am very glad to announce, online IAPM membership process with online payment facility has come into reality from 16th May 2017. Its benchmark in IAPM history.** I, appeal to all my seniors, Heads of departments in Medical colleges, practising pathologists and friends to urge postgraduates to become members as they enter residency programme and also spread word amongst colleagues.

In future, updation frequency of web-site by web-master will be more. Finally I propose to make the IAPM election process through online-voting in my tenure after due approval by EC & GB. I am trying my level best towards it and I need wholehearted support from all of you to achieve this Goal. Still there is lot more to do related to website.

The organising committee of the 66th APCON-2017 Conference under the dynamic leadership of Prof. Reeni Malik is working hard to make the conference a memorable, academic as well as social experience for you. After years the conference is being hosted within the environs of a medical college and I am sure that will add additional academic fervor to this conference.

The IAPM Elections for the year 2018 has been announced and the last date for receiving nominations is 31st August 2017.

With Best Wishes

Yours Sincerely

Dr Sharada Rane

Joint Secretary Message

Dear friends,

Best wishes and greetings. I am honoured and humbled that you have bestowed faith in me. With your trust, I promise to work tirelessly for the improvement of our association and address the challenges we are facing. I will be working in conjunction with the esteemed office bearers of IAPM and together we will move ahead. One of the issues being the less participation of state chapters of our association. So far after taking charge, I have received report of activities of five state chapters which are very active and enthusiastic. But it's unfortunate that we are not receiving the same response and participation from other chapters so far. So, I take this opportunity to request all chapters to come forward and take initiatives towards the academic activities round the year which will be beneficial for both budding and blooming pathologists of their states. I invite your suggestions in this regard which can enrich our association.

Jai IAPM.

IAPM ANNOUNCEMENTS FOR 2018

1. **Proposals** are invited for **APCON-2018** Conference by email on or before **1st November 2017** for the following:

1. Gaya Prasad Memorial Pathology Symposium
2. Twelve to sixteen parallel CMEs (in all sub-branches of pathology including Slide Seminars, Symposia, Lab.Medicine, IHC, molecular pathology and pathology education)
3. Online Quiz moderator

The moderator should have been a **life-member** of the IAPM for at least ten years. The moderator should put forward **NO** more than **two** proposals. The topic chosen should not have figured in the programs of the past five APCONS and they should be contemporary and of current importance. The selection of the moderator should be based

on the person's experience, past work and/or publications in that field of the suggested topic. As a principle, to give wide scope to members from all over the country, proposing members should not have moderated any session in the APCON in the past two years. On receipt of the proposals, the Secretary IAPM shall circulate the same to the members of Executive Committee. The matter shall be discussed in the Executive Committee meeting before being presented to the General Body. The topics shall be finally selected only after approval by the General Body. If the topics are not received on the stipulated time, topics (which have not figured in the programs of the past five APCONS) will be selected during the General Body Meeting.

2. **GUEST LECTURES** : Members are requested to propose names of overseas faculty for guest lectures during APCON-2018. Distinguished overseas Indian faculty may be preferred/approached for gracing the 2018 conference, since often there is no financial implications on the society for such invitations. The local hospitality will be provided to the guest faculty. Suggested names may be forwarded by 1st Nov. 2017.
